

Moore County Wildlife Conservation Club

Continuation of discussion about Tuesday Meeting:

I would suggest that before this meeting you visit the MCWCC web page and click on the management link to see the plan that we are now executing. This is an obligation that is 40 years past due. It is an obligation that is in our bi-laws and papers of incorporation filed with the state of NC. Please plan on attending this meeting to learn how you can help the MCWCC be good stewards of our land and meeting our duties as owners of the 82 acres the MCWCC holds. We will need your help to achieve our goals over the next twenty years.
